ABOUT US

Uniblok is a **Professional Blockchain marketplace**. Uniblok is for entrepreneurs, enterprises, instigators to find the best teams for their needs. We have a mission to empower the blockchain community who are unable to find technology partners.

We bring all the blockchain communities under one roof.

Uniblok revolutionizes the way clients and service providers connect in the blockchain industry. Our marketplace ensures seamless transactions, expert matches, and secure, transparent services.

Our vision is to develop a marketplace where finding a Service provider or Client could be hassle free for our Blockchain Community to empower them with right people.

PROBLEMS YOU FACE

Blockchain professional:

There are barely any platforms that are meant for Blockchain professionals.

Limited pool :

It often relied on local Client or Service provider pools, which limit the number of availability.

Payment Challenge:

Limited payment options hinder new-gen blockchain professionals from earning and making transactions freely on platforms.

Stretched resources:

The cost involved in hiring a professional disturbs the budget.

No security:

It was never ensured that the money recruiters received from Client and Service provider is safe.

Inefficient communication:

It led to inefficient communication between clients and Service providers, leading to misunderstandings and delays.

Lack of transparency:

It was opaque, with clients not knowing how their requirements are being met or how their money is being spent.

SOLUTIONS WE INTRODUCE

We are a **Professional Blockchain Marketplace** that connects Clients and Service Providers, and can solve problems for the Professional blockchain community related to talent acquisition and payment processing in the blockchain industry which enhances their **Security**.

Our platform creates an efficient **Pool of Blockchain** professionals where clients and Service providers can easily connect and work for the same objective.

The **Metaverse meeting** experiences, which can help clients and Service providers collaborate in virtual environments, reducing the need for physical travel and enhancing the overall meeting experience.

FEATURES

Marketplace

Discover the professional blockchain experts and connect with clients seeking top services and empowering the future of blockchain together

Unlock exclusive benefits with enhanced visibility, priority listings, and dedicated support for blockchain professionals.

Premium Service

Secure and reliable

Our platform is built on blockchain technology, which provides a secure and reliable environment for our users.

Metaverse meeting experience

Our platform provides a unique and immersive metaverse meeting experience that allows users to interact with each other in a virtual environment.

24/7 customer support

We provide 24/7 customer support to our users to ensure that their experience on our platform is smooth and seamless.

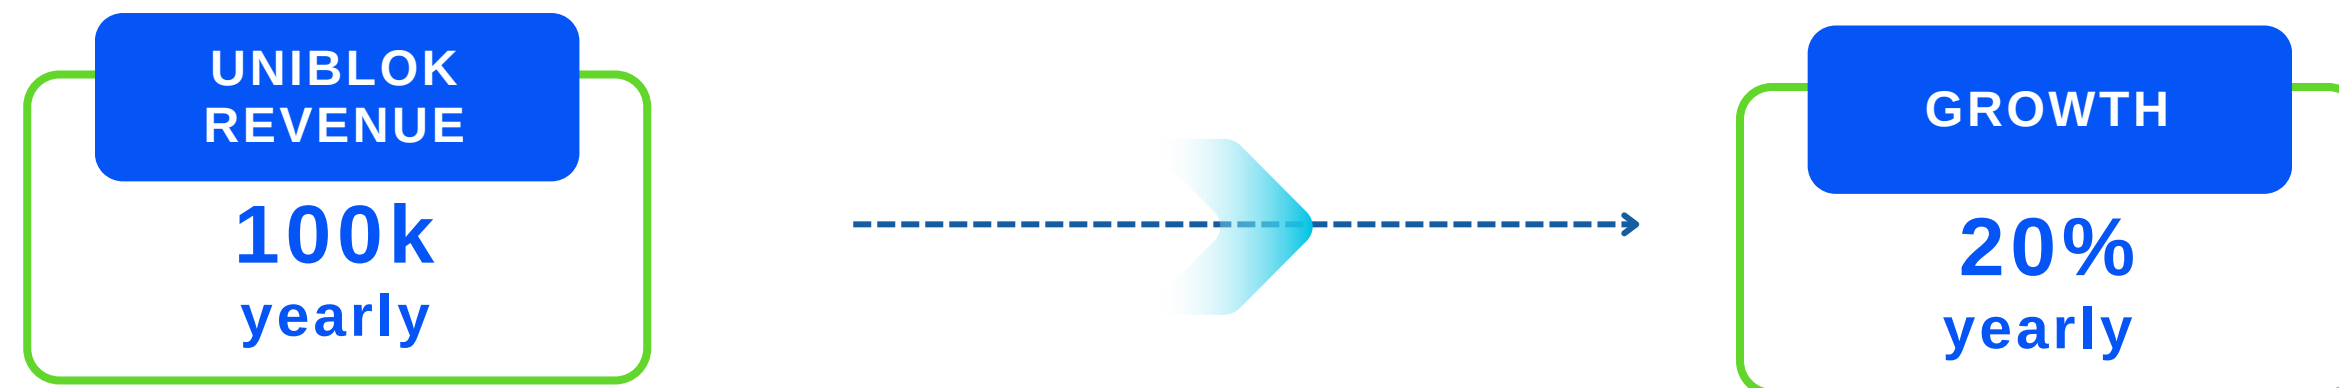

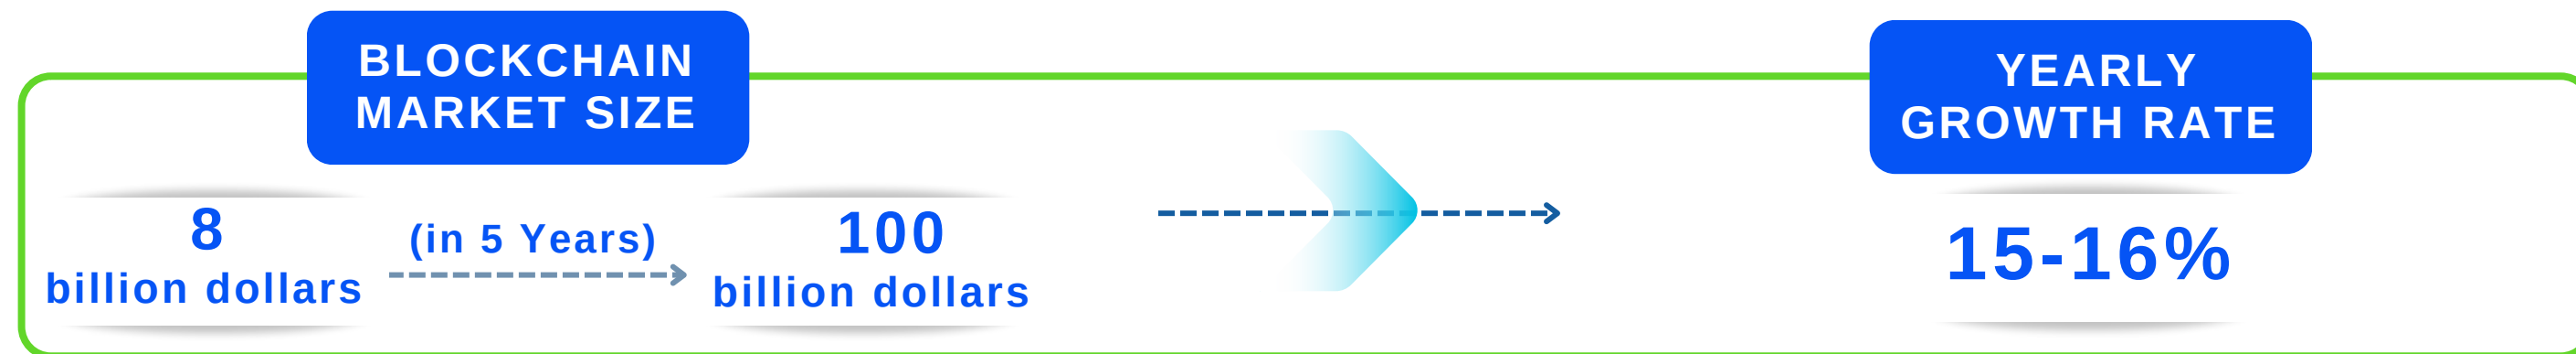

Crypto Payment

With market requirement, we decided to allow payments through crypto.

MARKET SIZE AND OPPORTUNITY

FINANCIAL YEAR 22-23

The global Blockchain Market size was reasonably estimated to be approximately \$7.4 billion in 2022 and is poised to generate revenue over \$94.0 billion by the end of 2027, projecting a CAGR of around 66.2% from 2022 to 2027.

Revenue Channel

1. Transactional Fee (50-60 %)

- Project Posting Fee
- Project Bidding fee
- Invoice fee

2. Premium Service fee

20%

3. Verification fee

10-20%

4. Team addition fee

10-20%

Current Product Stage

At this stage, we have successfully developed our **Minimum Viable Product (MVP1)**, a powerful foundation for our blockchain marketplace. Key features include:

User Registration & Profiles <ul style="list-style-type: none">Seamless onboarding and personalized profiles for both clients and service providers.	Service Listings <ul style="list-style-type: none">Easy posting and browsing of blockchain-related services offered by professionals.	Secure Payments <ul style="list-style-type: none">Reliable blockchain-based payment system for transparent and efficient transactions.	Rating & Reviews <ul style="list-style-type: none">Trustworthy feedback system to maintain high-quality services and build reputation.	Messaging <ul style="list-style-type: none">Direct communication between clients and service providers for effective collaboration.
Premium Services <ul style="list-style-type: none">To get faster response, support, be on top or get featured, be our premium user	Match making <ul style="list-style-type: none">Find the suitable client or service provider and work for the same objective	Paid verification <ul style="list-style-type: none">Reduce your bidding fee and get better offerings by becoming a verified user.	Metaverse Meeting <ul style="list-style-type: none">Enhance your meeting experience through metaverse meeting.	Smart contract based agreement <ul style="list-style-type: none">To make it more secure, we have a smart contract based agreement ready.

With MVP1, we're ready to revolutionize the blockchain professional marketplace, and we eagerly anticipate user feedback to drive future enhancements

Roadmap

Q3 2023

- Team feature -Add members on your account to manage company hierarchy
- verification feature- Get verified with a verification badge and highlight yourself

Q4 2023

- Contract changes- Change your terms and conditions for run time, on mutually agreed terms.
- Protect contract info- Hide and show data based on your comfort

Q1 2024

- Pool of Premium Services Provide- Create a pool of premium services providers and suggest them to needy clients

Q2 2024

- Mobile app first phase- planning, research, and design of our mobile app
- Metaverse environment corrections- Enhancing the metaverse environment for better experience

Q3 2024

- Exchange integration- leverage various functionalities and data available within the Exchange environment

30 Days	25%	0.29	12,500,000	3,625,000
180 Days	100%		50,000,000	11,575,000

1. Uniblok is the world's first utility token project that shares revenue generated with all its community members who hold Uniblok tokens, offering them a unique opportunity to participate in the project's success.

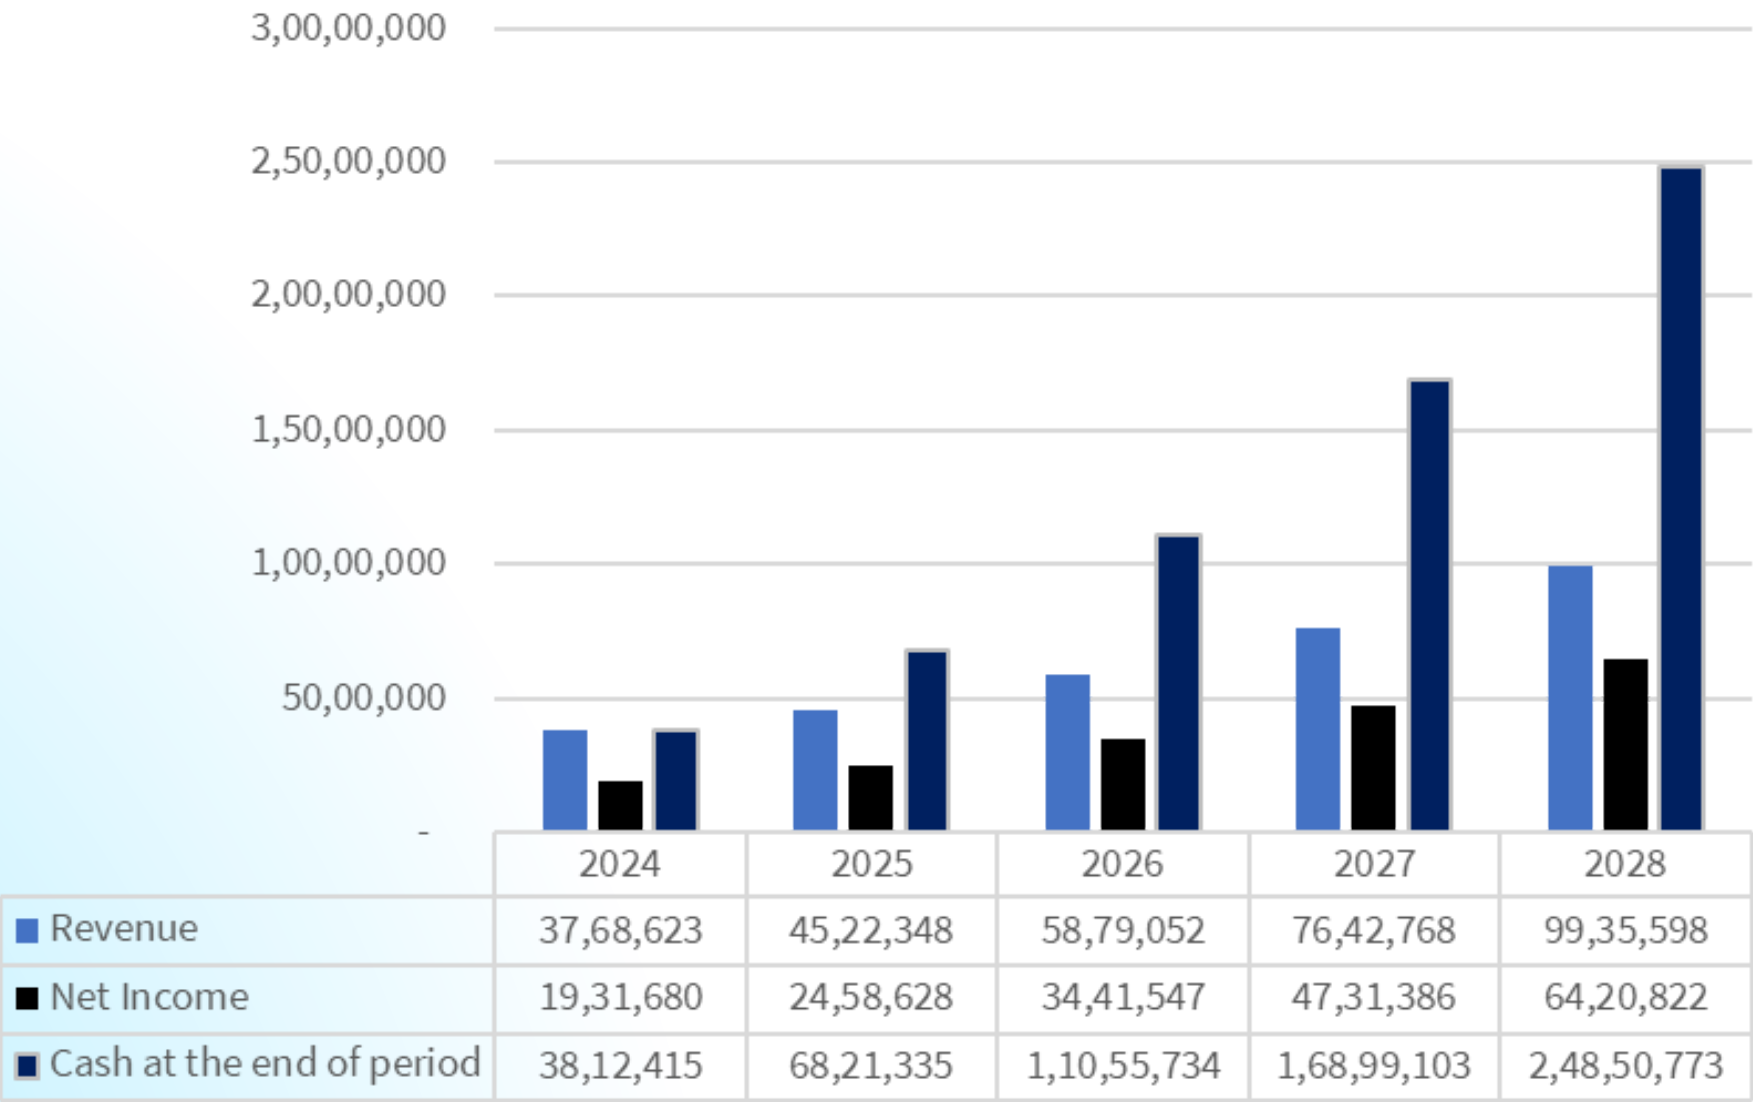

2. Uniblok provides its token holders with free token distributions on a quarterly basis. These tokens are purchased from the revenue generated through public exchange transactions, ensuring added benefits to the Uniblok community.

3. Uniblok token holders will receive a share of the free tokens based on the total number of Uniblok tokens they hold at the time of the distribution. The more Uniblok tokens a holder has, the larger their share of the free tokens will be during each distribution.

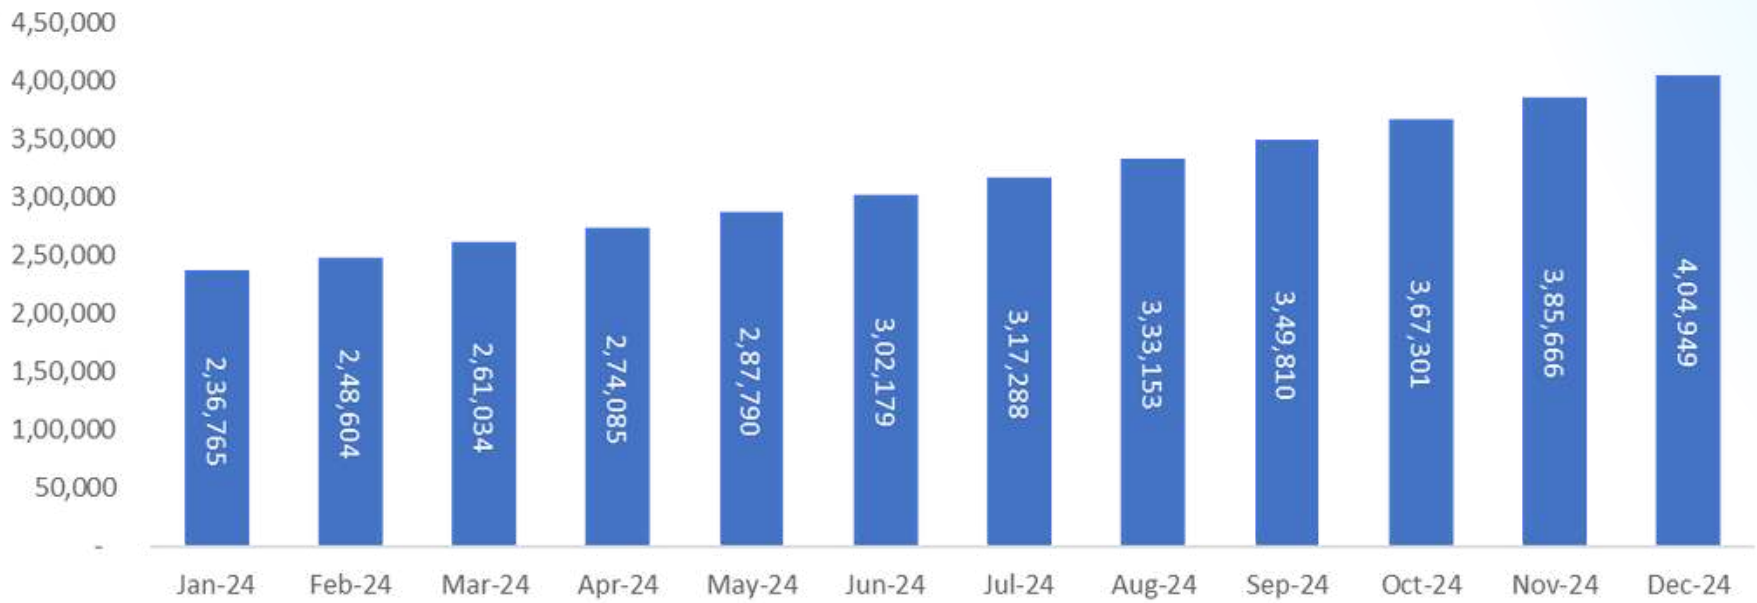

4. Uniblok tokens will be tradable on the official exchange, providing liquidity and enabling token holders to buy, sell, and trade their tokens with ease.
